

Wool Market Movements

# LANDMARK

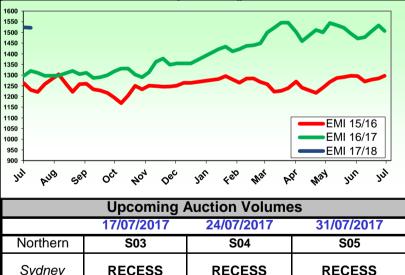

### Friday, 14 July 2017

- The Australian wool market held firm in the last week of sales before the three-week recess, with the EMI easing by 2 cents to 1522 c/kg. Prices for superfine and broad Merino wool rose over the week as did Crossbred wool prices. Merino wool between 19 and 20 microns eased in the Eastern states. Prices for cardings fell. The market was solid considering that the AUD lifted by more than 1 UScent to 77.1 UScents, the highest since March. The EMI lifted by 15 UScents to 1173 USc/kg. As well, offerings were higher than expected at 46.463 bales, with a pass-in rate of 7.7%.
- Buyer interest at the two-day sale in Sydney was focused on the better style fine Merino lots, Crossbreds and, to some extent, broad Merino wools. As a result, prices for these wools rose on both days. Best style fine Merino wools with good specs gained 30 cents on Wednesday and held firm on Thursday. Crossbeds lifted by 10-15 cents over the week, while buyer demand for lower spec broad Merino wool pushed prices 10-20 cents higher. In contrast to these gains, a large offering of 19-20 micron wool saw prices slide by 10-25 cents. Demand for Locks fell away and prices were down by as much as 50 cents. Prices for Crutchings and Stains fell 10 cents.
- Melbourne hosted a two-day sale and buyers were again keen on Merino wools with low VM and good specs. Well classed Crossbred wools also found favour. High VM, lower spec Merino wools were of less interest, particularly on Wednesday. Fine Merino wools 17.5 micron and finer gained 10-30 cents over the week, as did 18.5 micron wools. The more plentiful supplies of 19-21 micron wool saw prices fall by up to 20 cents, reflecting lower demand for high VM and poorer spec wools. Buyers were keen on well prepared lots of Crossbred wool and prices lifted by 10-15 cents across the micron range. Locks and Crutchings lost ground on both days.
- Prices at the two-day sale in Fremantle saw the best results of the three selling centres this week, aided by a high pass-in rate. Prices lifted by 10-15 cents on Wednesday, with buyers particularly interested in better style and spec Merino wools. In spite of the higher prices, almost 17% of the offering was passed in. On Thursday, prices for wool 20 microns and finer were firm to slightly lower, while broad Merino wools gained 10 cents. Demand for Oddments dipped and prices fell by 15-
