## Wool Market Movements

- The EMI fell for the second straight week, losing 8 cents to 2,008 c/kg clean. Buyers were keen to secure their share of a small selection of good style lots with higher strength, low midbreaks and low VM. The remainder of the selection was of poorer quality, attracted less competition and resulted in the overall softer tone of this week's sales. Nearly 9 % of the 45,130 bales on offer nationally were passed in. Next week sees a further fall in the national offering with 41,722 bales on offer.
- The Sydney market saw small losses across all micron price guides (MPGs) on both sale days. Wednesday's offering consisted of a significant number of finer (<18.5 µm), good style lots with favourable additional measurements. These were in demand and prices were generally unchanged compared with the previous sale. Broader MPGs lost up to 12 cents. Thursday saw many lots with low strength and high midbreaks which were discounted. Merino Skirtings lost ground as the sale progressed with finer crossbred lots gaining up to 18 cents. The Northern Regional Indicator finished at 2,058 c/kg clean down 5 cents while the Northern Merino Carding Indicator rose by 27 cents to 1,237 c/kg clean. The pass in rate in Sydney was 5.8%.
- Melbourne began this week's sale on Tuesday with small changes across all MPGs. Wednesday's offering comprised a larger selection of lots with low yields and high midbreaks which failed to spark buyer interest. Lots with best style and favourable additional measurements attracted buyers. The finer MPGs (<18.5 µm) lost up to 9 cents while the broader lots gained up to 9 cents. The market weakened on Thursday with reductions of up to 38 cents across all MPGs. The Merino Skirtings market was firm this week as was the crossbred market, although the latter did ease on Thursday. The Southern Regional Indicator lost 11 cents to 1,979 c/kg clean and the Southern Merino Carding Indicator gained 16 cents to 1,192 c/kg clean. Melbourne's pass in rate was 7.8%.
- Losses occurred in all Merino MPGs on both Fremantle sale days. A small selection of better style lots with favourable additional measurements maintained the same levels as last sale. However, the majority of lots were of inferior style and were between 20 to 40 cents below last weeks prices. Growers were unwilling to sell as these levels with nearly 18% of the lots passed in. Additional losses occurred on Thursday, particularly in the > 19 µm lots which fell by up to 32 cents. The Western Regional Indicator ended the week at 2,157 c/kg clean down 20 cents, while the Western Merino Carding Indicator gained 46 cents to 1,229 c/kg clean. Almost 16% of the lots on offer were passed in.
